He said Michigan State website very helpful and has about 6 videos pertaining to the tracking system. Terrian stated he would send a link to the site out to all the members of the board. Akin asked DuPuis about the maps that were distributed to the members. DuPuis stated that Bendily advised that maps are complete but color coding of different districts is a problem currently. DuPuis advised that these maps are 2012 maps but close to what the current maps would be. He also stated he hoped to have current maps by next meeting. Akin then stated once we are clear on the current zoning that perhaps we should consider what is called an overlay district which we would designate a portion of a current district for this ordinance's area. Akin stated that after looking at our current zoning map there are very limited areas along M55 that would meet the criteria when considering residential, churches, schools etc. Board members committed to having their questions for lawyer by Friday October 13. Milburn stated that there is an "MTA On The Road" class dealing with Medical Marijuana issues in West Branch on October 24th. We will try to get some answers to legal questions answered there.
