With the new land division law going into effect September 16th of this year I wanted to touch base with you on how we would like to see it implemented. I'm sending a form that needs to be filled out and certified by the County Treasurer's office prior to sumitting the land division application to the township. The property owner can send in the form to us with a check and after we have certified it we will fax it to the township or come in to our office and we will certify it that day.
